

01

Who are Sweet Construct?

We have been in business for over 40 years, our people are what makes us special and will ensure we keep achieving great things for another 40 years, and more. We have our own joinery and manufacturing capabilities, giving complete control over quality and delivery.

We work primarily as **Civils** and **groundworks** experts

Main contactors on commercial construction.

Fit out and **refurbishment** to exceptionally high standards.

The sectors we service are:

Industrial - highly complex data centres.

Education - university campus and independent school improvements.

Defence and MOJ - offices and production site.

Health - medical centre extension.

Retail and leisure - supermarket chain refurbishments.

Office and residential - head office fit out and refurbishment.

02

What are your opportunities

You can be a part of a **five-year Framework** for a major **university** in South Wales.

You can be a part of a **major transport construction framework** over **four-years**.

You can be part of **ongoing highly complex secure data centre** developments.

You can be part of major **inner-city regeneration** projects.

You can **work directly with clients**, buy in to collaboration and early engagement, prior to order.

03

Why you are important to us

We take your **safety seriously**, it's our number one priority. It's important, be **part of our Health and Safety ethos** and our **Behavioural Safety Roll Out**.

We need you to **help us deliver** and we know you need **our support and co-operation** to do this – it's a two-way relationship. We do this by **engaging** with you as **early as possible** in the **procurement process**, taking on board **your experiences** and **adding value** to our bid to the benefit of our clients.

If you **tender with us, you will win the work through us**. We won't give the work to a supplier who did not tender with us, it's not how we operate.

We want the **relationship to be lasting**, it takes a lot of time and resource, on both sides, to make it work well, so we want to stay loyal to you and **reward your loyalty** with repeat business.

We support our workforce and suppliers as **individuals with rights**, concerns, worries and **a life away from work**.

04

What is important to us both?

QUENSH – Quality Environment Safety and Health Management Systems to manage and mitigate risk as well as optimise our joint business performance. We want you to understand and buy-in to our values of...

Dedication - To complete the project to an exceptional standard, on time and on budget.

Accountable - Be efficient, effective, motivated and align to our no-claims culture to work together, not in conflict.

Responsive - Reacting quickly and positively to any changes as the project develops.

Knowledge - Know-how to do the job well and be willing to share and receive knowledge.

Expertise - Meet and ideally exceed expectations of the teams we all work within and the client.

Get in touch

Let's meet, discuss the options
and take it from there.
